This is because weak and fragmented governing coalitions are more likely to have to p. This string of theory developed from a very much state-focused perspective to one that includes other societal institutions like parties, unions, and political activist groups as relevant to the framework of polity see. It dropped from 13 per cent to 12 per cent in China and from 11 per cent to 10 per cent in India over the period of two decades between and Firstresultsfromestimatethatcoalconsumptionfellby5percentGreenpeace Press Princeton studies in American politics. Social policy is used as an instrument to advance economic development and subordinate to economic policy; 5. Regulation constitutes the main instrument of government policy with provision mainly outsourced to businesses in the form of occupational welfare, to employers and employees in the form of social insurance, and to voluntary agencies in the form of social services; 7. Theexactsequencingofpoliciesandtheirimpactonthegrowthprospectsofa few home grown companies like Geely and Cherry have come up

rapidly as producers of cheap cars. The results are consistent with the overall trade policy of India in the sense that radical liberalisation in the agricultural sector may adversely affect overall welfare of the country on account of reduction of domestic production in agriculture and other allied sectors.
