It is true that the abstraction of this music makes the audience engage in the process of participation as they are working out at the same time as the musicians what is going on. As for higher-order emotional responses, there are at least two possible explanations.

Ethics: An essay on the understanding of evil. The issue of creating a common educational ethos cannot be answered by recourse to unquestioned constants borrowed from the past. Apart from debate over which of these proposals most closely matches our experience, there is the question of how well each of them fits with the various solutions discussed above to the problem of our negative responses to music, and with empirical work on the emotions, which leads me to the second point: There is growing interest in both the variety of emotions and affective states more broadly, and non-cognitive aspects of, or alternatives to, cognitive theories of the emotions e. You are commenting using your Facebook account. On the one hand, autonomy has been able to produce very loud volumes and the first people to call up the water police were the Italian navy marine school next to the Giardini, because they have the impression that some of their gun ships had been stolen.
