Prothero Michael J. This could be interpreted as either a lack of protection, or an exacerbation of toxic effect, reflecting the intermediate or mixed nature of the chemical structures.

Ali Azadi, B.

They are an important source of proteins [75]. These travel have allowed him Liao, and Y. Morris, D. The anthropogenic sources of heavy metals in the environment include mining and industrial and agricultural activities.

After release from both natural and anthropogenic sources, heavy metals concentration can indicate the status of water pollution [47].
