There are some important conventions that help in reading a causal concept map like the one in Fig. This generic student model also seems to contain a set of rubrics for helping correct student misunderstandings or misconceptions.

Discourse markers have played an important role in dialogic analysis. Why not? Share on Facebook Share on Twitter. It appears that this model being generated on the fly has the generic student model as its starting point.

And that entire richness of conversation is missing when you interact in group lessons for homeschooling through distance learning for whole GCSE courses.
