In addition to emotion management, the sociology of emotions holds many promises and opportunities to broaden our understanding of administrative history. For this purpose, it uses a range of sources - from officer handbooks for the training of recruits to military psychiatry and memoirs. Trans, queer and post-colonial scholars, together with scholars of critical race theory, fat studies, critical disability studies or crip theory, have mapped out the ambiguities of investments in health and containment, often from the margins of the fight against HIV and AIDS. Variations of cognitive, emotional and bodily processes were roughly. Finally, from an administrative historical perspective, the question of the regulation of emotions arises. Skip to main content.
